Greenlee[®] Launches New Mini fiberTOOLS[™]

Greenlee[®] / A Textron Company (NYSE: TXT) is proud to introduce its newest additions in fiber optic installation and maintenance tools as part of its Greenlee Communications line. Greenlee Communications' Mini fiberTOOLS are small, lightweight and rugged, and designed to be used in demanding environments. They include, Optical Light Sources (OLS), Optical Power Meters (OPM) and Video Inspection Scopes.

Durable, compact and adaptable, the lasers and LED's provide stable sources of light and are able to interface to all industry standard connectors. The optical power meters can precisely measure optical powers down to -60dBm and provide convenient downloadable measurements for easy reporting.

The Video Inspection Scopes' unique focusing mechanism allows for convenient single-handed operation. The GVIS 400-HDP Video Inspection Scope is equipped with industry leading field of view that allows the technician to view and analyze outside all zones of the ferrule endface, and is equipped with automatic PASS/FAIL analysis software compliant to IEC 61300-3-35 standards. Live images and data can be transmitted through USB or Wi-Fi to smart phones and tablets from the GVIS 400-HDP probe via the GPAD 250 for analysis in the GVIS application utilizing [Andriod](#) platforms. The GVIS application will also be available soon for Windows and iOS platforms.
