MORE THAN ELECTRICAL

For over 150 years, Greenlee has been the premier brand, manufacturing innovative products desired by professional trades people worldwide. Greenlee proudly designs, tests and manufactures superior tools, testers and software apps that will get your job done **faster, safer and easier**®. While we've always had a wide range of tools suitable for use in stainless steel, plumbing, HVAC and pipefitting applications, we are now dedicating resources to expand our product offering within the mechanical channel. The same reliability and innovation that made us a leader in the electrical, utility and communications trades will now be found in the plumbing, HVAC and pipefitting trades.

The trade is evolving and Greenlee is here to support you with a complete product offering.
