

WELCOME TO THE NEW INDUSTRY STANDARD

NEW FIBER OPTIC PATCHCORDS

Instrumentation & Network Interconnects

ONE METER PATCHCORDS

- SC, LC, FC and ST
- APC and UPC ferrule finishes
- Length of 1m
- Hybrid cable available
- 3mm Up-jacket

APPLICATIONS

- Interface test instruments such as OTDR's and OPM's to fiber under test
- Patch panel interconnects

FIBER OPTIC PATCHCORDS

INSTRUMENTATION & NETWORK INTERCONNECTS

FOR PRODUCT VIDEOS,
DEMONSTRATIONS AND MORE VISIT:
www.youtube.com/GreenleeDEMO

BENEFITS

- Protects the bulkhead finish of the test instrument from contamination and possible damage when connecting to cables and connectors with an unknown level of damage and/or contamination.
- If the 1m jumper becomes damaged it can be thrown away and replaced. If the OTDR bulkhead becomes damaged the repair cost is very high for replacement or re-polishing. The OTDR then does not need to be sent back to the factory and remains in use.
- A hybrid 1m jumper can be used so that any type of field connector can be connected to the test instrument.

SPECIFICATIONS

Fiber Type	G.652D (SM), G.651D (MM)
Insertion Loss	Typically <0.1dB per connector; Max <0.3db (Per Connector)
Length	1m
GR-326 Compliant	Yes
IEC61300-3-35 Compliant	Yes
